Home Address: Øvre Fyllingsveien 17, 5161 Laksevåg
Phone Number: +47 925 01 050

Quick Summary about Zen

- Currently residing in Laksevåg, always open to meeting over coffee or tea
- Experienced Software Developer with 4 years of hands-on experience and open-source contributions
- Completed productive internships in Bergen and Germany, where I gained valuable insights into the industry
- Highly motivated in Front End Development, with a focus on HTML, CSS, and JS (SAPUI5, Vue)
- Projects completed in Vue and React
- Comfortable with Linux and always interested in DevOps
- Understands conversational Norwegian
- Written Norwegian comfortable!

RELATED EXPERIENCE

03.23 – *present* **Frontend Developer Internship**   RobustSys, Germany

As a UI Developer, designed visually appealing and intuitive user interfaces using **Figma** and implemented them using **Vue.js**, HTML, and CSS. Also created wireframes and prototypes for design visualization, participated in code reviews, and assisted with **project management** tasks. Gained experience in SCSS and **SAPUI5**. Was promoted to **Team Leader** for demonstrating strong skills and a positive attitude. Worked **remotely** from Bergen, Norway.

09.22 – 10.22 **Full Stack Internship**   Mohn Technology, Norway

Received training in **Go** programming utilizing **Ubuntu** as the primary operating system. Familiarized with industry-standard tools including **GitHub**, APIs, and Docker. Focused on backend development, resulting in a strong understanding of Go, and comfortable with **Vue.js**. Developed skills in technical work, teamwork, and relationship-building.

01.22 – 05.22 **VCS GIT Project Team Lead Internship**   Texas Instruments, USA

As team leader for our VCS Sync **GIT** project, we worked closely with our TI coordinator to develop database software. We developed a database **version control** using BitBucket.
Tools Used: JGIT, SDLC, Maven, Spring Boot, Junit, and Mockito.

DEVELOPER SKILLS

Technical Languages

• HTML/CSS	• JavaScript	• SAPUI5	
• Vue.js	• Python	• Go	• Bash/Shell

Operating Systems
- Linux (Ubuntu, Fedora, CentOS, Elementary, and more)
- Windows Subsystem for Linux
- Windows XP, Vista, 8.1, 10, 11
- MacOS

Tools

• Git/GitHub	• Figma	• Visual Studio Code	• Tabnine	• VirtualBox
• Kanban				

EDUCATION

08.20 – 08.22 **Bachelor of Science in Computer Science** The University of Texas at Dallas, USA

Courses I took at UTD include Natural Language
Processing, Linux, Machine Learning,
Computer Networks, and Discrete Math.

Notable Projects:
GitHub [CatBot Chatbot](#)
GitHub [Hexadecimal to Assembly Command Translator](#)
Figma [University Meet Mobile App Design Concept](#)

08.18 – 12.19 **Associate of Science in Liberal Sciences** Dallas College, USA

Two-year university degree to get acquainted
with world history, chemistry, physics, Calculus
and Linear Algebra.

PROJECTS

Personal Website Hosting   https://zenpark.co/

Created personal website using Namecheap domain and GitHub hosting. Used Git commands in VS Code to modify and update website. The website is responsive and uses rem instead of px.

Tea Shop in Bergen, Norway   https://bergenteashop.netlify.app/

Designed and developed a user-friendly website based on wireframes and design specifications. Improved upon the original design and ensured responsiveness for both computers and mobile devices. Wrote a high ticket sales pitch to increase conversion rates. Developed a strong focus on responsiveness during the project.

The Pink Calculator   https://thepinkcalculator.netlify.app/

Developed a pink calculator using React, featuring visually appealing gradient backgrounds. Gained experience with React and learned to create user-friendly interfaces.

Survey Website   https://feedbacksurvey.netlify.app/

Created a responsive survey design using only HTML and CSS, using Figma to design the layout. Designed as a challenge to gain entry into a competitive internship, the design was optimized for both mobile and desktop users, with specific responsiveness for devices such as the iPhone 6 and Google Pixel.

CERTIFICATIONS

The entire list of certifications
can be found at this link: https://www.linkedin.com/in/zen-park/details/certifications/

• KodeKloud DevOps Prerequisites
• Codecademy Learn the Command Line, Git & GitHub, Vue.js, Go
• Build a Website with HTML, CSS, and GitHub Pages Skill Path
• HackerRank Python certification

VOLUNTEER WORK

02.11 – *present*   **Academic Tutor/Consultant**   Managed by me

Pursued a passion for tutoring by providing private lessons in English, Coding, and Math through a small business. Developed strong patience and a commitment to individualized support for students.

02.21 – *present*   **Social Media Representative**   Whole Brain Health Initiative, USA

Curated custom emails on occasional basis for the nonprofit organization dedicated to Alzheimer's awareness and support. Contributed to the organization's efforts by writing informative blog content. Visit the organization's website at https://www.wholebrainhealth.org/

09.22 – *present*   **Minecraft Pixelmon Pokémon**   Hosted in Malaysia
                    Server Admin and Plugins Manager

Managed a modded Minecraft server using Nodecraft, including hosting community events, identifying errors in **logs**, conducting **security checks**, and **enhancing player experience**. Designed server **graphics**, managed **website**, and provided **customer service**. Led a team serving a community of 80 players, with 25 consistently active. Familiarity with config and json files and Nodecraft's built-in console.

02.23 – *present*   **Open-Source Contributor**   Codecademy, USA

Successfully completed Go's resource on composition as part of their **open-source** project, utilizing the **Kanban** methodology. Utilized Markup, Git, Ubuntu Linux, and the Terminal to complete the project.

OTHER WORK EXPERIENCE

08.22 – 09.22   **Mobile Phone Electrical Engineer**   Samsung, USA

Undertook field tests for various Samsung Galaxy phone models, with a focus on maintaining confidentiality. Executed unit test cases, upgraded and downgraded firmware to compare performance, and collaborated effectively as part of a team.

08.22 – 08.22   **KodeKloud E-Commerce Website**   KodeKloud, USA

Developed an ecommerce website for the sale of electronic goods utilizing **CentOS**, **Apache**, **MariaDB**, and **PHP**. Acquired experience in **firewall** installation and MariaDB database configuration. Gained experience in Apache HTTP server installation and PHP configuration.

08.20 – 12.20   **Cybersecurity and Web Design Educator**   Rex Academy, USA

Took on the role of a paid instructor at Rex Academy, teaching a class of 20 students. Focus on website design utilizing **ATOM** IDE and creating clean websites with **HTML** and **CSS**. Implemented the use of Kali Linux distribution and Metasploit for identifying vulnerabilities in personal data in the field of Cybersecurity.

05.20 – present **Linux System Administrator**   Gullover, USA

Contributed to Gullover, a private company specializing in private real estate, while balancing full-time work and university studies to enhance skills. Organized data on **Linux** servers using **Bash** scripting and gained proficiency in utilizing commands such as cron jobs, chmod, grep, mv, rm, and others.

08.16 – 01.18   **Special Education Teaching Assistant**   Arlington Independent
                 for Neurodivergent Students   School District, USA

As a teaching assistant, I worked closely with students facing learning challenges, honing my skills in communication and hospitality. I was honored to work with a student, Chidera, who spent much of his time in a wheelchair, and gained valuable experience in teamwork and effective communication.

OTHER LANGUAGE SKILLS

• Fluent in writing and speaking Korean
• Improving Norwegian, comfortable reading/writing
• Intermediate level in self-taught Japanese, certified in Kanji through WaniKani exam
• Basic proficiency in Mandarin Chinese, learned under Professor Yang at The University of Texas at Dallas
• Basic proficiency in Spanish, acquired through interactions with a Spanish-speaking friend

INTERESTS

• Enjoys Web Design
• Plays piano for fun and likes to learn new music.
• Have done some Music Production and Video Editing
• Likes to speak and think in multiple languages
• Knowledgeable in Korean and Japanese Cuisine, and respects French Cuisine
• Experiences in Norwegian Cheese Tasting
